

Benjamin Mezc, PE, LEED AP BD+C

Associate, Senior Mechanical Engineer

About

Ben has a strong and varied project portfolio of mechanical systems design experience. His projects range from private residences and senior living facilities, to academic buildings and cultural institutions including landmark buildings. He emphasizes attention to detail in order to ensure systems efficiency and successful end results. Ben strives to create highly coordinated mechanical systems, fully integrated with building architecture.

As Sr. Mechanical Engineer, Ben is responsible for mechanical systems design and related equipment selection. This includes system selection and layout, ductwork and piping systems design, and coordination with the client and design team. Additionally, Ben often takes on the role of project manager for the MEP design team.

Education

Bachelor of Engineering in
Mechanical Engineering,
Syracuse University

Primary Disciplines

Mechanical Engineering

Building Specialties

Academic, Cultural,
Residential, and Historic

Years of Experience

Practicing Since 2013

Licensed Professional Engineer

Registered in the State of
Connecticut

Certifications/Accreditations

Accredited LEED AP BD+C from
the US Green Building Council

Memberships/Affiliations

American Society of Heating,
Refrigerating and Air-
Conditioning Engineers
(ASHRAE)

Project Experience

ACADEMIC
