

Faith Wagner, PE Mechanical Engineer

About

As part of our New York office's mechanical department, Faith brings a unique and fresh approach to every project. During her time at Kohler Ronan, she has fostered her HVAC system design expertise and developed a diverse project portfolio. Faith's experience includes office fit-outs, academic spaces, cultural institutions, and private residences—both brand new construction and renovations.

As Mechanical Engineer, Faith designs mechanical systems, selects relevant mechanical equipment, and coordinates her work with that of the other engineering disciplines. Faith has proven that she can meet the demands of a variety of complex, multi-discipline building projects.
