## FULL-TIME EMPLOYMENT OPPORTUNITY PLUMBING/FIRE PROTECTION ENGINEER, New York, NY

Kohler Ronan, LLC is a leading Consulting Engineering Firm with offices in New York, NY, and Danbury, CT. We specialize in the design of building systems for commercial and institutional projects, delivering innovative and sustainable design solutions to diverse clients. Currently, we are seeking experienced Plumbing/Fire Protection Engineers for our New York City office. This full-time position is an excellent opportunity to work alongside industry experts and contribute to exciting, high-profile projects.

As Sr. Plumbing/Fire Protection Engineer, you will play a key role in designing building systems for a variety of projects, including museums, performance centers, academic institutions, collaborative workspaces, and high-end residences. Knowledge of the design of plumbing systems (central domestic water heating plants, backflow preventers, medical gas, etc.) and fire protection systems (NFPA 13, fire pumps, hydraulic calculations, etc.) is a requirement.

### KEY RESPONSIBILITIES

- Develop standards for plumbing and fire protection design documents, including drawings, sprinkler design criteria specifications, preliminary hydraulic calculations, fire pump selection, and code analysis
- Conduct field surveys of existing conditions and assist the construction administration department in reviewing plumbing and fire protection system installations
- Review architectural and engineering drawings for conformance with model and local codes, as well as NFPA standards
- Research model and local codes, as well as nationally recognized standards to support project code compliance
- Design plumbing systems (e.g., central domestic water heating plants, backflow preventers, medical gas, etc.) and fire protection systems (e.g., NFPA 13, fire pumps, hydraulic calculations)
- Attend project team meetings (Architect, Engineers, Construction Manager, Owner, etc.) throughout the design process to coordinate both space requirements for plumbing and fire protection equipment and distribution routing for these systems

### QUALIFICATIONS

- 10-15 years of experience in a similar role within an engineering or related environment
- Knowledge of the design of plumbing and fire protection systems
- Familiarity with Autodesk REVIT MEP, AutoCAD MEP, and Microsoft Office

### BENEFITS

- Competitive Salary
- Health Benefits
- 401K Plan
- Paid Vacation
- Profit Sharing Plan
- Long and Short-term Disability
- Life Insurance
- Educational Opportunities
- Flexible Schedule
- Summer Hours
