

Marist College

James J. McCann Recreation Center

Location	Poughkeepsie, New York	Size	12,000 square feet
Architect	Robert A.M. Stern Architects	Cost	\$4 million
Services	MEP/FP, Technology Design	Completed	2012

As part of major renovation to the James J. McCann Recreation Center for Marist Athletics, a state-of-the-art, \$3 million, 20,000-square foot Fitness Center was completed. The renovated athletic facility boasted some of the most technologically advanced strength and conditioning equipment available.

As a follow-up to those major renovations, Marist College planned a new 10,000-square foot building addition to the McCann Center and a renovation of 2,000 square feet of the existing locker and toilet room areas. The addition incorporated an athletic training program, pro shop, hall of fame, fitness center, and faculty offices.

Kohler Ronan was pleased to provide comprehensive mechanical, electrical, plumbing, and fire protection designs in support of this new round of improvements to this premier facility. The scope of work incorporated three design packages; site/ demo package, structural and the main design package.
