

New Victory Theater

Children's Theater Public Spaces Renovation

Location	New York, New York	Size	7,000 square feet
Architect	H3 Hardy Collaboration Architecture	Cost	Confidential
Services	MEP/FP	Completed	2017

The New Victory Theater is a much-loved off-Broadway theater in midtown Manhattan, distinguished by its claim as the first and only theater presenting work specifically for children and family audiences year round.

The children's theater underwent a 7,000 GSF renovation of public spaces in order to accommodate its growing number of visitors. The renovation included improvements to the box office, upper and lower-level lobbies, the relocation of concessions, new restroom fixtures, and enhancements to the entrance of the theater.

Kohler Ronan provided comprehensive MEP/FP engineering designs in support of the revitalization of this very important cultural institution and its transformational public space renovation.
