

Fairfield University

Marion Peckham Egan School of Nursing and Health Studies

| | | | |
|------------------|---|------------------|--------------------|
| Location | Fairfield, Connecticut | Size | 50,000 square feet |
| Architect | Newman Architects | Cost | \$12 million |
| Services | MEP/FP | Completed | 2017 |
| Awards | <i>ENR New England Award of Merit, 2018</i> | | |

Our engineers provided the essential MEP/FP designs for this 50,000 square-foot, four-story addition and two-story connector to the original facility constructed in 1977. Recently opened to students, the building includes a new entry appropriate for the campus, as well as transparent labs and simulation spaces highlighting the program. Engineering systems address and support flexibility within the laboratories, state-of-the-art data and imaging technologies, and distance and computer-based learning.
