

Craig F. Razza, PE

Partner

About

Mr. Razza is a partner and serves as project manager to numerous firm projects. His experience in design and project management of many healthcare, commercial, institutional, and industrial projects allows him to excel across many market segments. Additionally, his practical knowledge of all engineering disciplines enables him to successfully lead projects from the schematic phase through design and ultimately construction.

Mr. Razza's primary functions are in the areas of mechanical engineering, project management, and team leadership. He places an emphasis on coordination between disciplines, architectural and structural design components, and systems and equipment selection. Mr. Razza is a lecturer at the Yale University School of Architecture.
