

John Fusco, PE, LEED AP, HFDP

Senior Associate, Senior Mechanical Engineer

About

John has extensive education in mechanical engineering. He approaches each project with enthusiasm, pragmatism, and a sense of creativity. He has designed mechanical systems for a diverse group of market segments over the last several years, including academic, commercial/corporate, cultural, healthcare, municipal, and residential buildings.

As Senior Mechanical Engineer, John's main function within the firm is mechanical engineering and project management. He focuses his attention on coordination between disciplines, system integration with architectural and structural design components, and equipment selection as well as developing and maintaining project schedules and overall aspects of project delivery.
