

Talya Santillan, PE, LEED AP BD+C Partner

About

Ms. Santillan has designed mechanical systems for large institutions, universities, commercial spaces, and residences—both in urban and rural areas. She brings substantial industry experience, attention to detail, operational skills, and creative talent to all projects. Since joining Kohler Ronan's New York office, Ms. Santillan has proven herself to be extremely engaging and to possess unparalleled interpersonal skills. She is able to explain the most complicated engineering topics in the simplest of terms. Her skills have allowed her to successfully complete projects while mentoring several of our younger engineers. As Partner, Ms. Santillan will not only remain engaged in systems design and team leadership, but will contribute to business development and client satisfaction.
